

# Misery

BlutEngel

I wake up from a painful nightmare  
Another sleepless night  
And I feel so weak  
I'm feeling insecure  
I'm walking in the shadows  
Hope that no one notices that I am here  
I start to hurt myself  
Just to see if I still feel  
Or am I already dead?

I can't see the light  
Only voices in my head  
They tell me to run  
To the point of no return

Come to me my little boy  
I will guide you through the darkness  
I'm the one to give you  
Everything you need  
Don't be afraid to touch me  
I can be everything for you  
Only I can save you from this misery

I know I need someone  
To help me out from this misery  
I want you to be the one  
Tell me how can angels die  
When their wings are broken  
I think they will die soon

Come to me my little boy  
I will guide you through the darkness  
I'm the one to give you  
Everything you need  
Don't be afraid to touch me  
I can be everything for you  
Only I can save you from this misery

Come to me my little boy  
I will guide you through the darkness  
I'm the one to give you  
Everything you need  
Don't be afraid to touch me  
I can be everything for you  
Only I can save you from this misery
