

## My creation

BlutEngel

In the beginning, I created man  
And I thought man was good  
I was satisfied with what I created  
Everything seemed to be going well  
But then humanity changed

It will try to play God  
It will try to be like me  
It will try to play God  
It will try to be like me

It will always want more and will never satisfy  
They developed weapons and technologies to satisfy their greed  
They began killing each other just to satisfy their lust  
For power

I stand here at the end of the world  
And look at what I have created  
And I was wrong  
My creation has failed  
Humanity is trying to destroy itself  
What did I do wrong?

You are my creation  
Why did you disappoint me so much?

I stand here at the end of the world  
And look at what I have created  
And I was wrong  
My creation has failed  
Humanity is trying to destroy itself  
What did I do wrong?

You are my creation  
You are my creation  
You are my creation  
You are my creation

I stand here at the end of the world  
And look at what I have created  
And I was wrong  
My creation has failed  
Humanity is trying to destroy itself  
What did I do wrong?

I stand here at the end of the world  
And look at what I have created  
And I was wrong  
My creation has failed  
Humanity is trying to destroy itself  
What did I do wrong?
