

# My World

BlutEngel

I can see you in the darkness  
I can feel your broken soul  
I'm leaving you alone  
Alone in your world of lies

I can hear your thousand voices  
In the night of your life  
I'm leaving your world  
Your world of lies

You suffer from your own diseases  
In your little small world  
Come into my land  
There ain't no shadows, no broken hearts

It's my own world full of promises  
You suffer from your own diseases  
In your little small world
