

Nobody

BlutEngel

I still haven't found a place
For this fragile heart of mine
The world is still a scary thing
And I haven't found my determination

All the people around me
Will never understand (thoughts in my head)
I think that I will die alone
And no one will cry for me

Nobody tried to get to know me
Nobody took their time

Nobody tried to get to know me
Nobody tried to take their time
Nobody tried to get to know me
Nobody could love me
Nobody tried to take their time (only selfish people around me)
Nobody tried to get to know me (everyone only thought of themselves)
Nobody tried to take their time
Nobody could love me, love me

Nobody tried to get to know me
Nobody tried to take their time
