

Sing, Sing, Sing, Sing, Sing

Love is violent , love is pure
love is the answer , love is the cure
But love can kill you
If you lose someone (Yeah)
nothing lasts forever
love is loaded gun

(Sing) for all the people that you've lost
For all the friends you used to trust
(Sing) for all the dreams you left behind
(All the dreams you left behind)
(Sing) for all the people that you've lost
For all the friends you used to trust
(Sing) for all the dreams you left behind

The more you love
the more you will suffer from pain
You're afraid of losing it all
Love's a cruel , cruel game
And the devil will smile
When he takes your love away
No reason to fight
and no reason to cry

(Sing) for all the people that you've lost
For all the friends you used to trust
(Sing) for all the dreams you left behind
(All the dreams you left behind)
(Sing) for all the people that you've lost
For all the friends you used to trust
(Sing) for all the dreams you left behind

(Sing) for all the people that you've lost
For all the friends you used to trust
(Sing) for all the dreams you left behind
(All the dreams you left behind)
(Sing) for all the people that you've lost
For all the friends you used to trust
(Sing) for all the dreams you left behind

All the dreams ... all the dreams... all the dreams you left behind.□
