

## Suicide

BlutEngel

We will together - or we live apart.  
nothing last forever - love will break your heart.

It's a kind of feeling - we are crawling for.  
to a long cold way - through the naked floor.

One day you left me - you did it on your own.  
didn't have the chance to talk with you alone.

I'm walking through the night  
and i know hope's in sight  
so keep your hands from stupid things,  
from stupid things...
