

What You Get

BlutEngel

Get out of my life
You don't deserve it!
I bear you near me
What else can I do?
I have to accept you
But it is a shame
There's so much happening
But you don't care

Get out of my life
You don't deserve it!
I bear you near me
What else can I do?
All the promises were romantic
But none of it was true

All I have with you is your passion
All you get is a dream instead
You don't deserve more
And more you will never get

All I have with you is eternity
Full of tears and sweet bitter pain
You don't deserve more
And more you will never get

Get out of my heart
You don't deserve it!
When I left that night you cried
But the next day all was forgotten
You laughed and you
Get out of my heart
You don't deserve it!
I bear you near me
What else can I do?
You show your interest in me
As if we've never met before

Get out of my life
You don't deserve it!
Get out of my heart
You don't deserve it!
You don't deserve more
And more you will never get!

All I have with you is your passion
All you get is a dream instead
You don't deserve more
And more you will never get

All I have with you is eternity
Full of tears and sweet bitter pain
You don't deserve more
And more you will never get

All I have with you is your passion
All you get is a dream instead

You don't deserve more
And more you will never get

All I have with you is eternity
Full of tears and sweet bitter pain
You don't deserve more
And more you will never get
