

## in the process

Blxckie

I tried to fight right through your defence  
And even though, you don't gotta pretend  
I don't wanna find you, find you, find you at your weakest  
I don't wanna find you, find you, find you having regrets

Take care of you, hoping you get better  
And if you lose yourself, I lose myself too in the process  
Take care of you, hoping you get better  
And if you lose yourself, I lose myself too in the process

Don't do it girl I beg of you  
So much left, so much left, right here for you  
Don't do it  
I beg of you  
I can assure you that you're not by yourself  
Oh girl I'm here with you

And that's why, that's why  
Can't let you die inside  
Can't let you die inside  
Can't let you die  
And that's why, that's why  
Can't let you die inside

I tried to fight right through your defence  
And even though, you don't gotta pretend  
I don't wanna find you, find you, find you at your weakest  
I don't wanna find you, find you, find you having regrets

Take care of you, hoping you get better  
And if you lose yourself, I lose myself too in the process  
Take care of you, hoping you get better  
And if you lose yourself, I lose myself too in the process
