

## Let Me Down

**Blxckie**

How would you feel if I told you that I want to freak  
Especially since we've only been talking for a week  
I don't really care about what you heard about me  
All I really want right now is your body on me

Eish, let me  
Ouu ouu  
Let me freak  
Eish let me...

How would you feel if I told you that I want to freak  
Especially since we've only been talking for a week

Talk to me baby  
Tell me how you feeling  
You say you don't need to go  
Don't you pretend you didn't know

Took me some time to find you  
You're special girl, I want to be the one to excite you  
Finessing on the regular that's all I'm tryna do  
Not tryna be on the list of niggas that hurt you before

All of you is what I need  
All of you is what I fiend

How would you feel if I told you that I want to freak  
Especially since we've only been talking for a week  
I don't really care about what you heard about me  
All I really want right now is your body on me

Eish, let me  
Ouu ouu  
Let me freak  
Eish let me...

How would you feel if I told you that I want to freak  
Especially since we've only been talking for a week

This is real love I assure you  
Baby I'll do anything for you  
She said nigga don't, let me down  
She say nigga don't let me down

This is real love I assure you  
Baby I'll do anything for you  
She said nigga don't, let me down  
I swear that I won't, let her down
