More of you is what I need
More of you is what I fiend

My heart beats for you
My heart fiends... for you

Thought I told that I want your all, baby
Do I feel like you don't need me? maybe
You know that I'm always just a call away
Get up off your ass and make a nigga feel happy today

Sorry, if I made you feel like you're neglected
Sorry, If you feel like you're competing with my exes
