Imma need one more time, or 20 nights  
Give me a life of ecstasy  
I need, I need  
I need you

You see my eyes dilate  
Get excited when I see your face  
Get excited when I'm in your space  
Get ignited, girl, you are my flame  
I know you're guiding every move I make  
I like your vibe, oh girl, I like your taste  
You get me higher, make my soul vibrate  
I realize we're really on the same page

Need ya  
Girl, I really need ya  
I feel like I deserve ya  
Girl, I'm here to please ya  
Our love, I will preserve uh  
Sometimes, love ain't enough  
Girl, tell me what you prefer  
Don't gotta wait too long  
I'm outside, outside

Imma need one more time, or 20 nights  
Give me a life of ecstasy  
I need, I need  
I need you

Watching you do your thing  
You're the one girl, you're my everything  
Tryna love you till we both extinct  
Let me know 'bout how you feeling and think  
Big celebration every time we link  
I hope we grow and never reach our brink  
Don't gotta boast, we keep it on private  
Don't gotta boast, we keep it on silence

Need ya  
Girl, I really need ya  
I feel like I deserve ya  
Girl, I'm here to please ya  
Our love, I will preserve uh  
Sometimes, love ain't enough  
Girl, tell me what you prefer  
Don't gotta wait too long  
I'm outside, outside

Imma need one more time, or 20 nights  
Give me a life of ecstasy  
I need, I need  
I need you
