

Walking On Water

Blxckie

Look in straight into my eyes
Like who am I? (I)
Gotta fight the pain, you gotta look alive!
When I was at my lowest, I was getting high (High!)
Always with the team, I'm never switching sides
I caint feel no pain cause I'm the one who died (Yeah)
I don't see your lane; cause I'm the one who rides
I don't feel a way, I'm not the one who lied
Always find a way, I'll never need a guide
Where the hell was you when I was down and so, Frustrated?
Now a nigga on. It got me feeling like I made it.
Nights I couldn't sleep, a nigga had to go and get faded?
Smoking all this weed, while I was getting my hair; Braided?
Trapped up in my mind, the thoughts I had were hella; Heinous
Thinking all the time, at times I wish that I was; Brainless
You would've thought that I was crazy!
I was living so outrageous
I was grind! But now they're claiming that made me? They crazy!

Oh please keep me (please keep me)
In your prayers
I've been working on my back, just pulling daggers out
Had a whole chat with myself and I feel better now
Hey

Set my pride aside I know that its been in the way
Even though I've seen men fall, man, that won't happen in my case
(Oh hey yah, protect my peace) I'm walking on water now

I go deep, like scuba
Ride, like a Uber
In her thighs, like a scooter
Really, nice to do ya
Put my heart up in a cooler
Frank, like Muller
Give me medulla, you gon' make me call my jeweler
I don't go nowhere, unless I'm getting cash
Cameras in my face, and I don't like the flash
We gon' hang around? Or we gon' get the bag?
If it adding up? Bro that shit make mad!
I don't no consequence. Been making deposits since.
Niggas like politics
And them, and I? Opposites!
Niggas Like common shit and that, is not common sense
I am an alien, my watch is an Omnitrix
I was thinking of tricks. Broke boy getting it fixed.
I was down bad. I was lying was laying on bricks
Couldn't even take no pics
I was holding it down. I was dreaming of licks
Hanging 'round niggas with blicks
Don't you know? Violent niggas don't mix
Bitches was schemin' on dicks!

Oh please keep me (please keep me)
In your prayers
I've been working on my back, just pulling daggers out
Had a whole chat with myself and I feel better now
