

# Always Something

Blxst

Talking stages toxic phases don't know which way this gon' go  
Moods be swangin' losing patience I miss the way it was before  
Cause it's always something always something with you  
Cause it's always something always something

I can't save you not this time  
If you know so much take your own advice  
Must've lost your mind  
Baby so can I  
I  
Still got a lock on your heart true or not?

You remind me of my ex that ain't a good thing  
How you go and let your friends ruin a good thing?  
How would you like it if I up and got a new thing?  
Flew you in private but you acting nonexclusive

Talking stages toxic phases don't know which way this gon' go  
Moods be swangin' losing patience I miss the way it was before  
Cause it's always something always something with you  
Cause it's always something always something

And when it comes to petty shit  
Just love me like you said  
You divining up our vibe  
My vibe

I shoulda known from the start  
But you don't apply for the part  
This ain't what I signed us up for  
Suggest you don't try this at home

You remind me of my ex that ain't a good thing  
How you go and let your friends ruin a good thing?  
How would you like it if I up and got a new thing?  
Flew you in private but you acting nonexclusive

Talking stages toxic phases don't know which way this gon' go  
Moods be swangin' losing patience I miss the way it was before  
Cause it's always something  
Always something with you  
Cause it's always something  
Always something
