

## Be Alone

Blxst

(Shee) You be trippin' on the time we don't spend  
I pull up and gotta slide once again  
You signed up, said you'd ride to the end, yeah  
But you don't wanna be alone  
If it's something on your mind let me in (Ayy, let me know)  
I be hoping that the vibe never end  
I just hope you know that I understand  
That you don't wanna be alone

I been on the late night, making sure your plate right  
You be paranoid hearing sirens again (Shee)  
I been tryna make time, I been movin' statewide  
Hope I'm on the safe side, flyin' in the wind, ayy  
You know I double back, right after running laps  
I thought you wanted a hustler, girl, it come with that  
I need that duck off duffle, I need that humble pack  
And I'm tryna put you on to something you ain't never had

You be trippin' on the time we don't spend  
I pull up and gotta slide once again  
You signed up, said you'd ride to the end, yeah  
But you don't wanna be alone  
If it's something on your mind let me in (Let me know)  
I be hoping that the vibe never end  
I just hope you know that I understand  
That you don't wanna be alone

'Cause lately I been stingy with the time  
I hate to say you killin' off the vibe  
Play your position, you the realest on my side  
'Cause you the one I mention on my mind  
You be pressing on my line, look, I promise I'ma try  
To get it right, but I got money on my mind  
You say it ain't always 'bout money all the time, yeah  
But she don't wanna be alone

You be trippin' on the time we don't spend (Oh)  
I pull up and gotta slide once again (Oh)  
You signed up, said you'd ride to the end, yeah  
But you don't wanna be alone  
If it's something on your mind (Let me know)  
I be hoping that the vibe never end  
I just hope you know that I understand  
That you don't wanna be alone

You be trippin' on the time we don't spend  
I pull up and gotta slide once again  
You signed up, said you'd ride to the end, yeah  
But you don't wanna be alone  
If it's something on your mind let me in (Let me know)
