

Broke The Code

Blxst

The world keeps burnin'
Oh, what a day
What a day, what a day

Ayy, if you my dog we fall off only take a call
Don't be speaking on my name when niggas not involved
Name a time I told you nah, like what you need is in my ring
I never miss a call

Ayy, if you my dog we fall off only take a call
Don't be speaking on my name when niggas not involved
Name a time I told you nah, like what you need is in my ring
I never miss a call
With my back against the wall

I guess we just different though
A niggas quick to quit the mission once you piss em' off
Gotta put that bullshit aside
I just want to turn your feelings up
Cause' niggas ain't really riding till the words fall off
Loyalty is love
But time change
Gang ain't really gang
Spot on all my name "I can't look at you the same" they say
Love is pain, keep your energy the same
But that karma like a bullet to the brain, let it bang

If I ever did you wrong then let me know
Always kept it silent, never broke the code
But it is what it is, people grow
Ain't know telling how it end, I'll know

The world keeps burnin'
Oh, what a day
What a day, what a day

Ayy, ayy, no respect
I've been stressing plenty
Taking henny to the neck
Niggas turn they back on me
Not something I'd expect
Everytime [?] one look at me I reflect
Don't come fast and easy
Blxst and Breezy make the stretch
Yeah, we make it stretch
If I gotta get up in a mission not a sweat
I might make break up bitches for that chicken, no regret
He gon' do illegal get my niggas out of debt

If I ever did you wrong then let me know
Always kept it silent, never broke the code
But it is what it is, people grow
Ain't know telling how it end, I'll know

The world keeps burnin'
Oh, what a day
What a day, what a day
