

Call My Bluff

Blxst

You been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with
You been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with

I wonder what happened, clashing
Felt like the feeling was everlasting
Let them talk, they tryna 'cause a distraction
The two step stopped now that the devil is dancing
Asked the doc, like, "What is causing the cancer?"
At a loss for the answer
I ain't tryna fight no more
Never proved yourself right before
I'm skating on thin ice 'cause

You been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with
You been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with

I can't explain enough
Should we just hang it up
Love can be dangerous

But I still got love for you, still showing love
Still showing out for you, still showing up (Shee)
Even when I do guess it's still not enough for you
Out of all the things you accused me of
You choose to choose violence, I'm choosing love
As soon as we start vibing I'm losing touch with you

'Cause you been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with
You been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with

I can't explain enough
Should we just hang it up?
Love can be dangerous (Love can be dangerous)
Baby, I can't explain enough
Should we just hang it up?
Love can be dangerous

You been tryna call my bluff
Like I ain't the one that you fell in love with, huh

All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with
You been tryna call my bluff
Like I ain't the one that you fell in love with, huh
All in your feelings, girl, who you subbing, huh?
Always questioning who I was with, you're the one I fuck with
