

Get Away

Blxst

Okay

Ain't no question, you should send that my way

My way

I'm so reckless, I been pressing all-day

What do it take for us to get away?

Ah, could show you better, let me demonstrate

You got that pressure, I could never wait

You know it's pressure, I could never wait, no

I could put you on that, shawty, that's how I'm finna do

I just buss down both wrists, so I'm sliding 10 and 2

I'm lowdown, you don't even know me, you tryna interview

Chocolate shrooms done got you started, I'm tryna finish you

I'm laced up

Fly out to Turks with you, I'm just tryna switch the pace up

Why you plain Jane? I'll have Elliot fuck the face up

'Cause shawty comin' through, I had to look and open some space up

Fuckin' when we wake up, nah, for real

Okay

Ain't no question, you should send that my way

My way

I'm so reckless, I been pressing all-day

What do it take for us to get away?

Ah, could show you better, let me demonstrate

You got that pressure, I could never wait

You know it's pressure, I could never wait, no

You know I could take it there

If I never made it clear

Yeah

Besides gettin' money, you all I wanna do

Somewhere by the water, getting faded with you

Faded with you

Let a bag blow like I'm playing a flute

I'm an asshole, but I cater to you, ay

It's just one word I wanna hear when I tell you, "Come here"

Okay

Ain't no question, you should send that my way

My way

I'm so reckless, I been pressing all-day

What do it take for us to get away?

Ah, could show you better, let me demonstrate

You got that pressure, I could never wait

You know it's pressure, I could never wait, no

Yeah

Oh, oh

Oh, oh

'Cause I been pressing all-day
