

# Ghetto Cinderella

Blxst

Mustard on the beat, ho

I been lost in the streets lately  
But you know you the only one for me, baby  
And I know your friends say she crazy  
Baby, let's just be crazy together  
Kept it a hundred from the jump, they could never  
Replace my ghetto Cinderella  
Said if you down, then I'm down for whatever  
Long as we crazy together

'Cause I love it when you say, "I've been waiting for you"  
You should know I'm on the way once you tell me come through  
Yes, I love it when you say, "I've been waiting for you"  
You should know I'm on the way once you tell me come through

You ain't gotta overthink about it  
I can make it come to life if you dream about it  
You wanted the rose gold Cuban link, I got it  
Gave you the whole heart, you can't leave without it  
Yeah, yeah  
Toxic but you can't say you ain't have fun  
Options, but I can't play you, I choose one  
You know that I'm with you, no reason to prove nothing  
Especially not to one of your friends

Girl, it's not they job securing your spot, so that's up to you to see  
And if the world can't understand what we got, just know that that's cool with me

Oh, I been lost in the streets lately  
But you know you the only one for me, baby  
And I know your friends say she crazy  
Baby, let's just be crazy together  
Kept it a hundred from the jump, they could never  
Replace my ghetto Cinderella  
Said if you down, then I'm down for whatever  
Long as we crazy together

'Cause I love it when you say, "I've been waiting for you"  
You should know I'm on the way once you tell me come through
