

Headshots

Blxst

Ay, new beginnings, new blessings
For real, look, look

Slept on a God, woke the devil up
I cause hell, take a L when I level up, ay
Headshots to whoever ahead of us, wait
Red dot, I'm tellin', you better duck
They tried set him up, we was taught never trust
We just want hella love, big face, Bezel up
Whoever stayed down with me headed up
Whoever stayed down with me headed up

Hol' up (Hol' up), I'm the one who do it all (Do it all)

Loosen your buttons, you don't put in work, you called off
People will hold on to your ankle 'til you fall off
Oh, no, saw a dog, shotty get 'em all off
Body baggin' all y'all crossin' me, it's y'all loss
Now I gotta hit 'em with the "Whose this?"
Only solid niggas in my call log, blessin'
I can see the future, manifest it
All this time alone just help me put it in perspective
New direction, not what you expected, accept it
Voice of the young and the restless, you guessed it
And no pressure, it's chess moves
Niggas still playin' checkers
Yes sir, how you all talk, no effort?
Nigga you gon' have to show me, less lectures
Fuck runnin' your mouth, nigga, run it up (Run it up)
Blood moon eyes 'til the sun is up, doubled up
Comin' now, fuck the whole summer up
It's finna be a cold winter for you, bundle up
Long nights, short days, big plays, hundle up
Show you how to whip this shit from nothin'
From the mud then up, cuttin' up
Why you probably cuddled up, I'm in the gym
Up early, gettin' buckets up, damn

The done slept on a God, woke the devil up
I cause hell, take a L when I level up, ay
Headshots to whoever ahead of us, wait
Red dot, I'm tellin', you better duck
They tried set him up, we was taught never trust
We just want hella love, big face, Bezel up
Whoever stayed down with me headed up
Whoever stayed down with me headed up
