Program

Blxst

You think my life just too fast
(Some things you won't understand)
Take risks, take trips, I won't land
Don't disrespect my program
I know you miss my romance
(Some things you won't understand)
Long as you don't show your hand

Don't disrespect my program
I got ways that I do it
Fuckin' bitches, that you love, never gave nothing to her
Niggas still rapping still, ain't made nothing doing it
Bitch, already cappin', I ain't said nothing to her yet

Bitch, get with the program
Sliding to my trap shit I fuck her to my slow jams
Do that shit with both, nah, do that shit with no hands
Have that pussy floating dive in her ocean
No I cannot go for it
Pussy too good, got me up'n shit at ol' boy
You could never know my bitch, like I know yours
I got high ceilings, I got low floors
Got a bougie bitch, we be fuckin' in a Rolls Royce
I got big racks, swear I left them bitches no choice
I got what you need, you gotta' give me what I want for it
All you gotta' do is be that, and this shit so yours
Nah, for real

You think my life just too fast
(Some things you won't understand)
Take risks, take trips, I won't land
Don't disrespect my program
I know you miss my romance
(Some things you won't understand)
Long as you don't show your hand
Don't disrespect my program

I don't repeat shit (I don't)
How they want smoke with no defense?
You can't provide a plate, it's no leeches
Everybody around me straight, it's no creases
You could put all your faith in your speakers
Blxst gon' run up a bag, I'm on sequence
Everything player, the top to my sneakers
Don't spill no blunt guts on my seat, bitch
I'm something so cold, plus I came up solo
Bet that bankroll don't fold

I came up
I can't go, no
Can't go back broke
That's one place I won't go
Live my life on slow-mo'
Think I won't, then bitch, roll over

You think my life just too fast
(Some things you won't understand)

Take risks, take trips, I won't land
Don't disrespect my program
I know you miss my romance
(Some things you won't understand)
Long as you don't show your hand
Don't disrespect my program
