

You should know by now
Ayy, yeah

You gon' have a nigga trippin'
You gon' have me on a late-night mission
Pullin' up, I can't keep my distance
I don't know, girl, that pussy hit different
I just wanna slide on through, provide for you
Can name a list of things that I can do
Let me just glide on through, provide for you

Wait, hol' up, I'm finna turn this bitch up
I might talk, but I ain't fucking other bitches
Pull up like a Huggie, I don't care about the distance
Like I'm playing GTA, let me take you on a mission
Give you rounds, no intermission
Deontay Wilder, that pussy hittin' different
She don't got a Twitter, but I still gotta mention
She know how to work a nigga out, no fitness
Freak in the sheets, but she still do the dishes
She my rock, I'ma take my bitch on the road
Sold-out shows, Off-White, tan toes
Fuck a price tag, we go shopping on the road
When I'm with you, feel like I'm at home

You gon' have a nigga trippin'
You gon' have me on a late-night mission
Pullin' up, I can't keep my distance
I don't know, girl, that pussy hit different
I just wanna slide on through, provide for you
Can name a list of things that I can do
Let me just glide on through, provide for you
Let me slip and slide inside of you, yeah

Finna be a great night
I pull up on you, day time, late night
I'm the one, know you heard through the grapevine
Girl, I beat that thing down and I break spine
Girl, you gon' need a chiropractor
You gon' feel it in your spinal after
Ain't nobody goin' hard as I go, ayy
Make a video and go viral, ayy
You and I know, uh
I don't play, I'll fly your way
You say I been on your mind all day
I locate my ETA
You say you straight, but go both ways, yeah, yeah

You gon' have a nigga trippin'
You gon' have me on a late-night mission
Pullin' up, I can't keep my distance
I don't know, girl, that pussy hit different
I just wanna slide on through, provide for you
Can name a list of things that I can do
Let me just glide on through, provide for you
Let me slip and slide inside of you, yeah
