

## Still Omw

Blxst

Put me on top, city on lock, they like, "When you gon' drop?"  
He done shook the game up, when he gon' pop?  
Yeah, they know the name but is he gon' stop?  
Back to back runnin', fuckin' up the whole summer  
On the road, I'ma take the whole globe from 'em  
We ain't had enough  
Niggas speaking down, but they know who comin' up

And I'm still on my way  
But the top don't look too far from me  
Never called off, not one day  
And I'm still on my way  
Still on my way

Yeah  
I'm just greedy like Chubbz with a hustle like Pooh  
Tryna get it out the mud like what else I'm supposed to do?  
It was in my blood shit my family even knew

'22 I blew, I owe everything to Tru  
Something outta nothing, that's a cold situation  
Know they prolly hot, but they froze in the faces  
I didn't even rush, I was chosen, but patient  
Feelin' like Russ, I went gold out the basement  
Get it by the cases, runnin' Evgle chains by the dozen  
Told gang that I love 'em, it's a whole celebration  
Barely getting started, but still gotta embrace it  
When it's from the bottom it's a different foundation  
Yeah  
It's a different bag waiting on the other side, I just want to  
live in salvation  
We ain't had enough  
Niggas speaking down, but they know who comin' up

And I'm still on my way  
But the top don't look too far from me  
Never called off, not one day  
And I'm still on my way  
Still on my way

And I'm still on my way  
But the top don't look too far from me  
Never called off, not one day  
But I'm still on my way
