

Thousand Hours

Blxst

I prolly spent a thousand hours
Thousand hours thousand hours
You don't
I prolly shoulda never kept you too close
I prolly spent a thousand hours
I prolly spent a thousand hours
Thousand hours thousand hours
I prolly spent a thousand hours
Thousand hours thousand hours

Ever love someone so much you know you better off without em
Hat to see it fall cause you done built it from the bottom
I say I'm the problem cause I lose em how I got em
Now every time this song play can't help but think about her
Tryna shake it off but its haunting me
Ion feel nun'
Still numb to it it make me wanna go drill sumn'
I can never trust em its something I gotta heal from
How you going big on big?
I'm not the lil' one

You don't
I prolly shoulda never kept you too close
I prolly spent a thousand hours
I prolly spent a thousand hours
Thousand hours thousand hours
I prolly spent a thousand hours
Thousand hours thousand hours

My diamonds flawless all them yellow and pissin
All my children we been dripping since like 2011
Look at me
Pathetic nigga
This chain that I bought
You mix grief, fame, and haze
These the heinous results
Thinkin' back when Sherane tried to hold me back
I told her this is not a regular Jeep this a Track bitch
It's XO's for the old hoe who want it back
Bitch, I'm ten toes I'm too cold to run it back

You don't
I prolly shoulda never kept you too close
I prolly spent a thousand hours
I prolly spent a thousand hours
Thousand hours thousand hours
I prolly spent a thousand hours
Thousand hours thousand hours
