

Time

Blxst

Honestly, I'm getting tired of trying
You be on a whole different kind of time
When I'm focused, you can not deny where I'm on
West side nigga gon' go for you
I'mma treat it like I'm 'posed to do
This ain't nothing new, we been overdue
You know I'm trippin' if it's over you
You know I need it bad bae

My girl text me, pull up, fuck a valet
When I fuck up, I'mma fuck you out your mad face
Boost you up and gas you up when you on half tank
Fuck me right, fuck around and get my last name
It ain't fouling, I'm too committed to this cash game
Swear I thought I told you
Know I'm in these streets, but shawty know I got a soldier
Still gon' pull up on you when I want to
And I'mma put it on you

Honestly, I'm getting tired of trying
You be on a whole different kind of time
When I'm focused, you can not deny where I'm on
West side nigga gon' go for you
I'mma treat it like I'm 'posed to do
This ain't nothing new, we been overdue
You know I'm trippin' if it's over you
You know I need it bad bae (Yea)

I need you to be an asset
These liability bitches just be a bag check
I'm tryna keep my pace, I can't do back steps
I'm tryna carry that weight, I'm on my last rep
Yeah, but I'm not ready to relax yet
But I need your body
Question - Can I come and see your body?
Stop pressin'
I ain't tryna read about it, fuck texting
I can go a week without it
You know that

Honestly, I'm getting tired of trying
You be on a whole different kind of time
When I'm focused, you can not deny where I'm on
West side nigga gon' go for you
I'mma treat it like I'm 'posed to do
This ain't nothing new, we been overdue
You know I'm trippin' if it's over you
You know I need it bad bae
