

# Pollution

**Bo Diddley**

(Take a look, take a look, up to the sky)  
(Pretty soon, pretty soon, we all gonna die)

Pollution  
(Pollution)  
Pollution  
(Pollution)  
Pollution  
(Pollution)  
Pollution  
(Pollution)

Now, jet planes line up in the sky  
Pretty soon, we all gonna die  
Some of you people don't understand  
About throwin' your garbage in the street and use your can

Pollution  
(Pollution)  
Pollution  
(Pollution)  
Pollution  
(Pollution)  
Pollution  
(Pollution)

Pollution  
(Pollution)  
Pollution  
(Pollution)  
Some of you people don't understand  
(Gotta stop and think about your automobile)  
About throwin' your garbage in the street and use your can  
(We all gotta run, gotta believe)  
Pollution  
(Pollution)  
Pollution  
(Pollution)

Pollution in the home  
(Pollution)  
Pollution in the street  
(Pollution)  
Pollution everywhere  
(Pollution)  
Gonna get you and me  
(Pollution)  
Pollution  
(Pollution)  
Pollution  
(Pollution)

(We got to stop pollution)  
Say it, chump, watch that paper bag  
(We got to stop pollution)  
Put the top on that garbage can, baby  
(We got to stop pollution)

The wind is blowin' awfully hard  
(We got to stop pollution)  
Watch that cigarette pack, baby  
(We got to stop pollution)  
Me and you, baby  
(We got to stop pollution)  
We got to keep America clean, honey  
(We got to stop pollution)  
You and me  
(We got to stop pollution)
