

# Control

BoA

You try to run me, but it's not happening  
Is this on purpose? Are you an accident?  
You try to tell me, tell me, you try to push me round  
You're just like gravity, you keep me on the ground

You can't tell me what to do  
Last time I checked, I don't belong to you  
If you try, just know you will always lose  
We just met, I'm already over you

You don't know me, I'm not who you think I am  
You don't own me, your wish is not my command  
Oh oh oh oh  
You think you're in control  
You think you're in control  
Control, control, control  
You think you're in control

You want my cherry kisses, I'm like a purple rain  
Caus' I'm your fantasy, the one that you can't contain  
Watch how you talk to me, when you speak my name  
Who do you think you are, not falling for your game

You can't tell me what to do  
Last time I checked, I don't belong to you  
If you try, just know you will always lose  
We just met, I'm already over you

You don't know me, I'm not who you think I am  
You don't own me, your wish is not my command  
Oh oh oh oh  
You think you're in control  
You think you're in control  
Control, control, control  
You think you're in control

I have no clue who crowned you  
King of this world, you don't rule me

Think you're in control  
Control, control, control  
Think you're in control  
Control, control, control, control

You don't know me, I'm not who you think I am  
You don't own me, your wish is not my command  
Oh oh oh oh  
You think you're in control  
You think you're in control
