

Don't Start Now

BoA

I've been waiting for so long
What I thought I had for you is gone
But now you're callin' me
You've been checkin' loud but you said nothing
When you knew that I felt something
Shoulda never fell for you

You wanna talk that game
But you ain't got the nerve
You're gonna trip on this
When you get what you deserve

(I'm over you)Don't start now
The feeling's come and gone
You played me far too long
Now I'm over you
Toodle--oo baby

(I'm over you)Don't start now
The feeling's come and gone
You played me far too long
Now I'm over you
Toodle--oo baby

My friends, they tell me you're no good
I never listen but I should
Cause you ain't right for me
Now you're stopping over every day
Getting all your stuff up in my face
And that ain't what I need

There was a time when you were fine
You were the one
And now I'm steppin' out
The deal is said and done

(I'm over you)Don't start now
The feeling's come and gone
You played me far too long
Now I'm over you
Toodle--oo baby x2

All I wanted was to chill some time with you
But I never got a single sign from you
Had to be a player crimin' with your crew
Thinking it was dope
Now you're comin' on ancient history
Take a look around it ain't no mystery
Time for you to find another fantasy
'Cause I ain't steppin' with you

(I'm over you)Don't start now
The feeling's come and gone
You played me far too long
Now I'm over you
Toodle--oo baby x4
