

# Show Me What You Got

BoA

It doesn't matter if it is slow or fast  
The beat is for us to feel,  
Our choice is always for real  
It doesn't matter what type of color it is  
One thing that girls want to know,  
Is the way to go

Formality, you may like it probably  
Life is here, here to stay  
Monsieur DJ,  
We're gonna ask him to play  
Track would be a funky beat for all the fellows

We'd be doin' nothin' but girl's things and  
For the Ecstatika that we are  
Better not to wait,  
Don't make things so complicated

Show me what you got  
Baby, tell me if it's hot  
I can feel the heat from the depth of your heart  
Show me what you got  
Baby, give me if it's cool  
All the girls, ready to turn you on

It doesn't matter if it's tiny or huge  
Guess what you have inside you,  
The massive one which I knew  
It doesn't matter where you're from or who you are  
One thing we ask you is that,  
Why don't you come together?

Now it's the time,  
I wanna see all of your dance  
Full on the floor and move your body  
Nights are so long, you should not be alone  
Tonight's gonna be a party, the beat goes on

We'd be doin' nothin' but girl's things and  
For the Ecstatika that we are  
Better not to wait,  
Don't make things so complicated

Show me what you got  
Baby, tell me if it's hot  
I can feel the heat from the depth of your heart  
Show me what you got  
Baby, give me if it's cool  
All the girls, ready to turn you on

Pass me the microphone,  
Wicked MC's hittin' the tone  
Now my DJ turn the bass on  
At the party, everybody is lookin' for the best match  
The lovely vibe that you can touch, oh baby  
Through the night til the beat goes breaking down  
Close your eyes in the precious moment

And listen to your heartbeats  
Baby, now you can realize what you got inside  
Oh yeah, the girls come and sing like this

We'd be doin' nothin' but girl's things and  
For the Ecstatika that we are  
Better not to wait,  
Don't make things so complicated

Show me what you got  
Baby, tell me if it's hot  
I can feel the heat from the depth of your heart  
Show me what you got  
Baby, give me if it's cool  
All the girls, ready to turn you on
