

## A Girl

bôa

She was the kind of girl  
Beauty, you think you know  
You know that you want her  
Take time don't be afraid  
You can always refrain  
You can always pay later

Ooh, the things you do now  
Ooh, the way you play now  
Ooh

You could've made her  
You could've made her  
Could've made her  
You know you could've made her

She was the kind of girl  
Beauty, you think you know  
You know that you want her  
Fake lights burning bright  
Fake fur she wears tonight  
You know you can pay later

Ooh, the things you do now  
Ooh, the way you play now  
Ooh

Could've made her  
You could've made her  
Could've made her  
You know you could've made her

Could've made her  
I know you could've made her  
Could've made her  
You know you could've made her

Could've made her  
You could've made her  
Could've made her  
I know you could've made her
