

## Beautiful & Broken

bôa

Silence, take care of me  
Hold me in a way you've never held me before  
Show me just what it is  
And let me balance myself on this floor

I wish that I was stronger  
I wish that I was better  
But I think there's something beautiful  
In the broken

Silence, give me a moment  
Let me figure out what I need  
Take care of your honeys  
Let them know that they'll always be seen

I wish that I could be better  
I wish that I could be stronger  
But I think there's something beautiful  
In the broken

Take care of your loved ones  
Give them something else they can focus on  
Give me a moment to rest my eyes  
And I'll be with you soon

I wish that I could be better  
I wish that I could be stronger  
But I think there's something beautiful  
In the broken

I wish that I could be stronger  
I wish that I could be better  
But I think there's something beautiful  
In the broken
