

Crawling

bôa

I made a choice to love you
You made a choice to love me too
Some say that love is like falling
I think it's more like crawling

I only wanted one night
Turns out you're still in my life
I only wanted this time
Turns out this time is all our lives

Staring at your face I feel safe
Holding you tight I feel strong
What happened to me being empty
What happened to you being cold

I only wanted one night
Turns out you're still in my life
I only wanted this time
Turns out this time is all our lives

I only wanted one night
Turns out you're still in my life
I only wanted this time
Turns out this time is all our lives
