

# Daylight

bôa

Daylight, and the night that flows away  
(Soon the day will fade to gray)  
Chase the light  
(Watch the light)  
Send it back to the day  
(Slowly fade away)  
You in my memories  
(You must be on your guard)  
Like the wind  
(Watch the dark)  
Stirs the autumn leaves  
(When we will part)  
I will send for you  
(I will be by your side)  
Chase the clouds  
(Like the wind)  
Throw them up to the sky  
(Stirs the autumn leaves)  
Call for the wind to blow the moon  
(There will be much to fear)  
Hold her face  
(Guard your heart)  
Long for her embrace  
(Keep it by your side)

I call for daylight  
I will call for daylight  
I will call for daylight  
I will call for daylight

I have need of the light  
(There will be a time to choose)  
Bring it soon  
(Choose it well)  
Call the ones we know  
(This will be your path)  
Hold the light in your heart  
(Shape a bird to fly away)  
See the night  
(Send it far)  
Let it glow  
(Tell it where to go)  
I will call the moon...  
(I will hold the moon...)  
See the day begins again  
(There will be a time to choose)  
Find the truth  
(Hold your heart)  
Hold it close to you  
(Throw it up to the sky)

I call for daylight  
I will call for daylight  
I will call for daylight  
I will call for daylight  
Daylight  
I will call for daylight

Daylight  
Daylight (daylight)  
Daylight (daylight)  
Daylight will show  
Daylight will show
