

# Stand By

bôa

When you go I will be  
Where you want me to be  
If you need me I will  
Be standing by  
By, standing by

You know you make me smile  
I hope I can make you smile  
If you need a warning I will  
Be standing  
Standing by

You saw the monsoon  
The rain was tumbling  
And we danced 'cause we were  
We were laughing  
You know  
Before you  
If you need me

We picked flowers in the  
Morning long time ago  
Do you remember when  
The things you do with your friends

There could be a day when  
There could be a day when  
I will be there when  
There could be a day when  
There could be

If you need me I could  
Be wherever you need me  
You know you don't need to  
See or hear me don't you

Standing by

Catch the light and show you the way  
Be the one to stop you being afraid  
Make the trees to where you when you wish  
Give you everything you need  
Be the one to hold you when you cry  
Let you know that you're really wise (standing)  
Make sure that you want to be strong (by)  
Be here when you need me along
