

Born In Time

Bob Dylan

C6/9 C

In the lonely night

Am

In the blinking stardust of a pale blue light

Dm

You're comin' thru to me in black and white

F Fm C Dm

When we were made of dreams.

C F/C C Dm

You're blowing down the shaky street,

Am

You're hearing my heart beat

Dm

In the record breaking heat

F Fm C Dm

Where we were born in time.

C G

*1: Not one more night, not one more kiss,

F C/E

Not this time baby, no more of this,

Dm C G

Takes too much skill, takes too much will,

C

It's revealing.

Dm G

You came, you saw, just like the law

F C/E

You married young, just like your ma,

G/D C Dm

You tried and tried, you made me slide

G C/E F

You left me reelin' with this feelin'.

F C Dm

On the rising curve

C Am

Where the ways of nature will test every nerve,

Dm

You won't get anything you don't deserve

F Fm C

Where we were born in time.

*2: You pressed me once, you pressed me twice,

You hang the flame, you'll pay the price,

Oh babe, that fire

Is still smokin'.

You were snow, you were rain

You were striped, you were plain,

Oh babe, truer words

Have not been spoken or broken.

F C F/C

In the hills of mystery,

C Am

In the foggy web of destiny,

Dm
You can have what's left of me,
F Fm C
Where we were born in time.
