

## Peggy Day

Bob Dylan

Peggy Day stole my poor heart away  
By golly, what more can I say  
Love to spend the night with Peggy Day.

Peggy might makes my future look so bright  
Man, that girl is ought of sight  
Love to spend the day with Peggy night.

Well, you know that even before I learned her name  
You know I loved her just the same  
And I tell them all, wherever I may go  
Just so they'll know, that she's my little lady  
And I love her so.

Peggy Day stole my poor heart away  
Turned my skies to blue from gray  
Love to spend the night with Peggy Day.

Peggy Day stole my poor heart away  
By golly, what more can I say  
Love to spend the night with Peggy Day  
Love to spend the night with Peggy Day.
