

# Deep in the Heart of Nowhere

**Bob Geldof**

Hey Baby there's a storm coming up  
It's still about nine miles down range  
But don't get excited  
Cose winds are blow  
then employ out of the windows of changes  
But if you want me  
You know where  
I'll be waiting for you  
You can find me  
I'll be here  
True blue  
Deep in ther heart of nowhere
