The Happy Club

Every morning 'Bout the break of day Every evening She comes up and she says

She gets up then she goes outside She don't know what she does But it feels alright

She says I, I'm a sunny girl Yeah, I'm feeling good And it's a shiny world Well, here she comes

She feels good, she feels great today When I asked she said "Hey, it's the happy club way"

I don't know I don't know what to do But I know if I could Then I would do too

I feel great, I feel fine today I joined the happy club And the happy club says I feel good I feel great today Now, I know what to say

Bob Geldof
