

## Before I Fall

Bob Moses

I broke down, I wish that I could take it back  
Start again, cause I found, I never got the chance to say  
What I meant

So now, I only get to blame myself for everything  
Could I be so wrong, wrong, then you gone  
I just can't seem to go on  
I'm gonna need someone strong  
To catch me before I fall

Now I do everytime you go far away  
Shame how I push you off when I just want you to stay  
See now I was only trying to hide from the pain  
Somehow I wish that I could get you back  
Here again

Could I be so wrong, wrong, then you gone  
I just can't seem to go on  
I'm gonna need someone strong  
To catch me before I fall
