

# Keeping Me Alive

Bob Moses

I've lost my way  
Hard to find my feet on the ground  
Day after day  
Looking for the easy way out  
What will it take  
To pick me up when I'm going down  
Throw me away  
Start it from the inside out

You're my escape  
You hide me from the fear that I found  
Take me away  
Don't give me up cause I'm going down

Won't you come and take me higher  
I try to find, all the trouble that keeps weighing on my mind  
When I'm running through the fire losing sight  
You're the only thing that's keeping me alive

What would you say  
To help me keep my feet on the ground  
When I lose my way  
Starting from the inside out

Won't you come and take me higher  
I try to find, all the trouble that keeps weighing on my mind  
When I'm running through the fire losing sight  
You're the only thing that's keeping me alive

Won't you come and take me higher  
I try to find, all the trouble that keeps weighing on my mind  
When I'm running through the fire losing sight  
You're the only thing that's keeping me alive
