

# Round & Round

Bob Moses

In this moment  
You and I are connected  
Strangers from afar  
With you as my witness  
We won't ever forget this  
Tonight is forever ours

We get started after midnight  
And continue while the lights are down  
We'll be dancing through the sunrise  
Magic happens when the stars are out  
And you'll feel it when the time's right  
Bodies moving when they hear that sound  
'Cause that music never let me down  
Keep that record spinning 'round and 'round
