

The Rush

Bob Moses

Don't stop baby come a little closer
Lean in to me, tell me that we're chosen
I'm not who I was before I met you
Yeah yeah yeah yeah yeah

Meet me out back
Black gloves and black mask
Wheels start turning
Future in a flashback
Guess who's coming
Devil down the same track
Yeah yeah yeah yeah yeah

Hush
We do it for the rush
I'm ready for the crush
It's killing me too
But I can do it for you

13 candles flicker a dark room
Lights out honey, paint me with your perfume
When we come down
Who you gonna turn to?
Yeah yeah yeah yeah yeah

Twisted turning caught me in a tailspin
Tie me up and throw me in the deep end
Spit me out I'm back to where I began
Yeah yeah yeah yeah yeah

Hush
We do it for the rush
I'm ready for the crush
It's killing me too
But I can do it for you
