

Touch And Go

Bob Moses

Well there's a little black box where you keep your life locked
away now
And there's an answer in your heart
But you won't let it start to play out
So won't you tell just once, darling what are you so afraid of
Go on and show me what you're made of
Go on and show me what you're made of

And here we go round again now
Honey it's true, the one that you want is right in front of you
Touch and go and all I wanna know , right in front is you
Yes or no, it's got me down so low, right in front of you
Touch and go, and all I wanna know, right in front is you
Yes or no, I've waited for so long

So if the feeling ain't right won't you tell me the fight is over
Instead of taking my time
Well you know that I tried to show you
But you've got nothing left to hide
And there's nothing to be afraid of
Go on and show me what you're made of [x2]

Touch and go, and all I wanna know, right in front is you
Yes or no, I've waited for so long
