

# Everybody's Doing It

Bob Schneider

One night at the green dock  
You think somebody through a punch  
The next thing I knew there  
Were chairs flying everywhere  
When I sat into the rain  
That's when I saw you standing there  
Butterflies and tigers in your hair

Everybody's doin' it  
Oh you know it's true and it  
Everybody's doing it we can too

Your cell phone it kept ringing  
Oh it kept ringing off the hook  
You had a necklace from your boyfriend  
Gave you while you gave me that look  
I took each word you told me  
And held each word up to my heart  
And they cast a shadows on its walls

Everybody's doin' it  
Oh you know it's true and it  
Everybody's doing it we can too

I used to have a good friend  
That used to run all over town  
Get into some trouble  
But nothing really turned out  
Now I hardly see her  
It's crazy how a road can turn  
It's crazy what you find out  
Oh yeah when you never learn

Everybody's doing it  
Oh you know it's true and it  
Everybody's doing it we can too  
We can too  
We can too  
Ah, we can too
