

Good Luck

Bob Schneider

I don't play bingo cause I never win
And I'll never go riding wild horses again
No I don't gamble the way I used to do
I used up all my good luck
The day I ran into you

Lightning don't strike twice that's what they all say
But lightning strikes me most everyday
When you say I love you I know that it's true
I used up all my good luck
The day I ran into you

Ooohhh

I don't go drinking on the wrong side of town
With fast and easy women that I have found
I try to be careful and to watch the things I do
I used up all my good luck
The day I ran into you

I used to take my chances whenever I could
If the lord wouldn't save me I knew lady luck would
(and somehow I managed to always pull through)
But that was long before I had something to lose
I used up all my good luck
The day I ran into you

Now some folks just don't know when it's time to quit
But baby I know that this love is it
(but baby I know that your love is the shit)
I'm done running around cause I know that its true
I used up all my good luck
The day I ran into you
