Madeline

Bob Schneider

I've been out for so long now
Feel the cold wind draggin' me down
Blowin' away, lightnin' strikes me
There's a whole lot of craziness in this town

It's shadow realm
Inside the head of mine
It's gettin' harder
And scarier with time

I met a lover
I put my money on the long shot
Came out smellin' like a dog
And feelin' so hot

And I'll take anythin' that you've got now
Anythin' you've got now, take anythin'
Madeline, Madeline, Madeline
Save me from myself

Gas station prophets
Kept giving me the sign
So tell it like it is boy
We are layin' on the line

The simple life
Holds no reason
You play the game
And turn the dial

And I'll take anythin' that you've got now
Anythin' you've got now now, take anythin'
Madeline, Madeline, Madeline
Save me from myself

Alligator shoes
Tarantula breath
All looked good on paper
Now it's scarin' me to death

I'm all wrung out
And nowhere to go
Just, just a second string
Romeo

And I'll take anythin' that you've got now
Anythin' you've got now, take anythin', anythin'
Madeline, Madeline, Madeline
To save me from myself
To save me from myself
