

I love my baby she's fine as can be
But my baby ain't got no time for me
She working all day down at the fillin' station
Doin' her thing while I'm rockin' the nation
Believe what I believe in, that's the way it'll end
Invite me to the party but I won't attend
I say "Thank you, please, you're welcome"
Then I vanish
Speak a little German, no Spanish

My baby's working hard at the Texaco
And all I want to do is go to Mexico
My baby say "Baby, better let it go
I ain't got time for that"
My baby's working hard at the Texaco
And all I want to do is go to Mexico
My baby say "Baby, better let it go
I ain't got time for that"

I got these moves, I make it, I'm shaking my legs
When I first met my baby she was carryin' a keg
I jumped on my bike followed her down the block
Had my shit real tight like a safety deposit lock
Switched it up, put my hair in a bun
I said "Hey, pretty baby, let's have some fun"
My shit was on fleek so I knew that she'd want it
Sometimes when you got you gotta flaunt it

My baby's working hard at the Texaco
And all I want to do is go to Mexico
My baby say "Baby, better let it go
I ain't got time for that"
My baby's working hard at the Texaco
And all I want to do is go to Mexico
My baby say "Baby, better let it go
I ain't got time for that"

Our love is like the movie about the young dude
Who met the young lady in a match in the nude
She didn't like him at first but then by and by
Before the movie ended she fell off of the guy

Now she got grease on her pants I got gel in my head
I keep the flow smooth like a waterbed
I rock the microphone like they did back in the day
So let me hear everybody say

My baby's working hard at the Texaco
And all I want to do is go to Mexico
My baby say "Baby, better let it go
I ain't got time for that"
My baby's working hard at the Texaco
And all I want to do is go to Mexico
My baby say "Baby, better let it go
I ain't got time for that"
