

Burning

Bob Sinclar

Baby, my heart is full in love and desire for you
And can't you see its
Burning burning burning burning

Burning burning burning burning

Baby, my heart is full in love and desire for you
Now come on down and do what you gotta do
My heart is full in love and desire for you
And can't you see its
Burning burning burning burning
Burning burning burning burning

Baby, my heart is full in love and desire for you
Now come on down and do what you gotta do
My heart is full in love and desire for you
And can't you see its
Burning burning burning burning
Burning burning burning burning

(Now come on down and do what you gotta do
My heart is full in love and desire for you
And can't you see its
Burning)

Baby, my heart is full in love and desire for you
Now come on down and do what you gotta do
My heart is full in love and desire for you
And can't you see its
Burning (can't you see its
Burning)

Now come on down and do what you gotta do
My heart is full in love and desire for you
