We Could Be Dancing

Bob Sinclar

Been looking for the sound for a long time
I thought it'd be a while before I'd find
I wanna hear the sound, it feels right
I wanna feel the sound, we're up all night

We don't have to hurt each other
We can live and learn
Yeah, if only we could see each other
Living in a world

Where we could be dancing
You and me
You and me
We could be dancing
You and me
You and me

Where we could be
You and me
You and me

Been looking for the love for a long time
I thought it'd be a while before I'd find
I wanna see the love, it feels right
I wanna feel the love, we're up all night

We don't have to hurt each other
We can live and learn
Yeah, if only we could see each other
Living in a world

Where we could be dancing
You and me
You and me
We could be dancing
You and me
You and me

If only we could see each other
Living in a world

Where we could be dancing
You and me
You and me
Where we could be dancing
You and me
You and me
