

CENSORED (Interlude)

Bob Dylan

I said George Floyd was murdered
**** said I can't say that
I said the neighbours called me ****
Station said they can't play that
Meanwhile **** hide in plain sight
Johnny Rotten tried to warn us way back
Maybe if I made pacifist punk
Non-violence always makes for a great track
Give a **** about great lyrics, smooth flows
When the emperor's old gimmick is new clothes
Same old stories, nothing new told
Appear to speak truth but don't be too bold
They say make a song for the radio
Hey ho something to play on the day show
Your music upsets advertisers
It's 'bout the Peso, what they say goes

And so...
