

Save Yourself

Bob Vylan

Times are tough, we all could use a helping hand
Troubles weighing on your mind, quickly sinking in this sand
Thinking thoughts about your future, trapped on this hellish land
I heard that death is what happens while you're making other plans
Looking 'round for help, may as well dig the grave yourself
Make your way out of the hole you made, you've got to save yourself
You've got to save your self

Run, run, run, you ain't never gonna win
Looking right, looking left, or at her, or at him
You ain't never gonna be anything that you wanna be
If you play it safe and place your real dreams under lock and key

Yeah, no one's gonna help you 'cause this world is so cold
And it likes to make examples out of all the brave and bold
But you've got to carry forward, can't afford to lose your soul
You don't look around for help, you've got to do it on your own
You've got to save... your... self

Fight, fight, fight, just as hard as you can
Change your luck, change your style, change the cards in your hand
I know life's getting peak, it's a mountain to climb
With the worry in your heart and that doubt on your mind

Yeah, no one's gonna help you 'cause this world is so cold
And it likes to make examples out of all the brave and bold
But you've got to carry forward, can't afford to lose your soul
You don't look around for help, you've got to do it on your own
You've got to save... your... self

Save yourself!
